Lets dress him up as a girl!

How long have you wanted to hear those words? I'm guessing for a very long time. But how is it going to happen? Will you be kidnapped by a group of large breasted makeup artists and transformed into a beautiful girl? Drugged in a bar and driven to a mansion far, far away to be used as an experiment by an evil Dominatrix? Forced to become one of the cheerleaders at school and entertain the football team? I hate to tell you this, really I do, but there is a chance that this may not happen.

So how can you fulfill your fantasy of being caught in panties by women you know, blackmailed, and forced to become a feminine little plaything for their amusement? I have a plan.

First of all, you need to have your own clothes. That's right, everything from panties to stockings to heels. Fortunately you don't have to have any makeup or even know how to apply it. The girls will take care of that for you. I suggest something like this Thumbelina sissy dress from [Feminize Me](#)

You'll want to get the matching panties and stockings as well. Think pink.

Let me tell you about this beauty. The Thumbelina is a beautiful fairy-tale dress that will make you feel like a sweet princess. Its made from high-quality shiny satin, and features

a flattering neckline, with dainty fixed bows at the front. It has cute, puff-ball sleeves, with a ruffle hem. The Thumbelina is elasticated from under the bust to the waist, for your ease and comfort - which also gives a perfect fit. The very short ballerina-style skirt sits on the underskirt for a really dramatic look, with the petticoat fully exposed.

The little satin pinafore, which is also edged in satin ruffles, has an extra long sash to tie at the back. The petticoat has layers and layers of net, and each layer is hemmed with beautiful lace which finishes it off to perfection. THIS is what you will be wearing and you will be loving every second of it. (pretend to be embarrassed)

Now for the plan.

Step 1:

You invite some women you know over to your house, invent a reason. Maybe you need help choosing paint colors for your bedroom. Or maybe you're thinking of renting out a room, and you need a woman with a sense of style to help you decorate and set the price. You want the women to be flattered that you've asked them for help. You are just a man and know nothing about anything. Make that very clear. Its a good idea to promise them lunch, drinks, a swim in your pool, and a ride in your new Corvette. The fact that you don't have any lunch, drinks, a pool, or a Corvette is going to work in your favor, trust me.

Now who will you invite over? Good question. Hopefully you know some women that you are friendly enough with to help you. Maybe some of the girls from work. You know the ones. The stars of the office that get all the attention and get away with murder because they have huge, firm breasts, perfect bodies, and legs that you want wrapped around your head. (you may have to promise them that they can drive your Corvette).

How about your neighbors? The divorced housewife that always wears those pretty sundresses and has perfect makeup even in the hottest weather. Or the college girls that share the house down the block and are always laughing long into the night. What are they laughing about? With the proper preparation they will soon be laughing at you trying to walk in heels.

If necessary, ask your wife's sister or Mother in law. Or your girlfriend's best friend. Be creative, if you spend as much time planning this as you do fantasizing about being feminized you'll have it made.

Step 2:

The girls have agreed to come over for drinks, a swim, and to drive your imaginary Corvette. Now all you have to do is get ready.

Leave the door open and tell them to just let themselves in. Have some music playing so you can act like you don't hear them when they arrive. Ideally you'll have the radio on in your bedroom so they can find you easily. Simple right?

Meanwhile, you are very busy in your room prancing around in a pair of [Bambi lace covered pink satin panties](#). Make sure you practice your prancing, its very important.

Your Thumbelina dress, stockings, and accessories should all be laid out on the bed. Make it very easy for the girls, give them ideas. Leave your dresser drawer open so that they can see your collection of lingerie. Once they realize that you have no pool or car they are going to be fairly annoyed, and blackmailing you will be the perfect payback.

Are you following me so far? Picture this: They walk in all happy and cheerful, ready for a fantastic afternoon. They're thinking about drinks, and beating the hell out of a brand new sports car. But there are no drinks, and there is no car, what the fuck? And to top it off you're prancing around the room in panties!

Now the girls are mad and guess who they'll take it out on? I'll give you one guess.

They want to get back at you for making them get all dressed up, and driving all the way over to your house. They've put on their sexiest outfits, spent extra time on their makeup and hair, and planned on meeting their friends at the beach driving a shiny new 2011 Corvette as you promised. But none of that's going to happen is it? You flat out lied to them, you conned them. You wasted their time. They would like to beat you to a pulp, but that gets messy. So you're prancing around in panties in front of angry women that want revenge.

“OH MY GOD, HE'S A SISSY!” The words give you an instant erection which is only going to make this even more fun.

“Look at all these panties, and that dress, and those stockings. Lets go girls-we have to tell everyone about this.”

Step 3:

You're fucked and you know it. There is absolutely no way to explain this and you're popping out of your panties. They are going to tell everyone you know that you are a sissy, a very well dressed sissy but still. Chances are you don't want that to happen. So you beg.

“Wait a minute girls, please don't tell anyone about this. I'll make it up to you I promise”

Your promises are about as real as the new Corvette and they know that. Now you beg some more.

“Please-please-I'll do anything. Anything!”

They look around the room, at the clothes on the bed, and at each other. Suddenly they all have the same idea and its perfect: “Lets dress him up as a girl!”

Finally, its going to happen. Of course they'll probably tell everyone anyway but you don't care at this point.

They open your closet and find a beautiful, [Electra long length blonde wig](#).

They open their bags and take out the makeup they need. Mascara, eyeliner, eyeshadow, blush, and of course lipstick. You are now completely helpless and they proceed to dress you up like a little doll.

They tease you relentlessly, “We're going to have to find you a boyfriend. What kind of boys do you like sweetheart?”

You try to speak but find that you can't. This is much more intense than you ever imagined. They go through their lipstick and find you a nice bright red.

“Oh no, not the lipstick!” you say as your erection grows.

At this point you want to concentrate very hard on not exploding into your panties, because you know there is so much more to come. The humiliation, the teasing, and the pictures of you that will be all over the internet. You are going to be nothing more than a plaything for their amusement. You princess, are going to be completely feminized. All the way from the top of your long, blond curls to the tips of your freshly painted toenails. This is what you've dreamed about for so long. This is what you spend your days and nights imagining in vivid detail. This is what got you off thousands, if not tens of thousands of times. Your fantasy is now going to become a reality. Its time to dress you up as a girl. But not just any girl, an ultra feminine, sissy girl. You will remember this day for the rest of your life, and so will everyone you know. This is your 15 minutes of fame. More if you can postpone an orgasm until the girls are finished with you.

Nail polish is next. Concentrate, make it last. This is your dream!

As you sit waiting for the polish to dry, they decide to take some pictures. All the girls have a Facebook page and they also want to print a few for the bulletin board at work.

So far so good right?

They reapply your lipstick and give you a tissue to blot your lips before the photo shoot.

“I think he needs a little something extra to help him feel more feminine,” and they search for some perfume to help you out.

They dab a tiny bit behind your ears and the fragrance hits you like a hammer.

Its too much, its happening too fast. The panties, wig, nail polish, lipstick, and now the most feminine perfume that you could imagine. You close your eyes and try to hold back, but its no use. You shoot hard into those pretty pink panties for what seems like a very long time. It feels fantastic.

When you open your eyes the girls all have their mouths open in shock. They want no more of this and begin to gather their things.

“No wait-don't leave!”

But they're already on their way out. You never got to wear the dress for them, or walk in heels, or even have your picture taken. Who knows what they would have done to you once you were completely dressed?

As you hear the car doors slam, you realize you blew it. You sigh, and say to the now empty room:

“Feminize Me...Feminize Me...Feminize Me...Feminize Me...”

I told you to concentrate!
